

# Participation Guidelines for FEYSB Sports

- Football** All participants will adhere to YMCA requirements for age and weight.
- Basketball** All participants will practice and play at their grade level. Should a team not have five players at the time of a game they will be allowed to have a younger player participate to create a team of no more than five players. If this occurs more than once then the opportunity should be rotated to players on the younger team.
- Baseball/  
Softball** Participants will play at the age/grade levels established by the league. Participants wishing to move up one level will be allowed to advance only when:
- The team is not considered “full”
  - The coach, with approval from the FEYSB Board, has determined that the player is proficient for the level of play
- When advancing younger players:
- Younger siblings of team members will receive first consideration
  - Age appropriate players will always take priority in practice and games
- Note:
- Players will not be allowed to advance more than one level
  - Parent volunteers/coaches should understand that their participation does not guarantee placements of their son/daughter on a specific team, including advancement to a higher level of play
